

Greetings to all Zone 13 members. It has been a good year within Zone 13. First, the Zone emerged from a previous year of COVID restricted activities, but most activities resumed including many drives, autocrosses, rallys, concours events as well as social events. There was IMSA Racing at Road America as well as a Club Racing event there also weeks later. It was my 1st year at Road America and the reputation of a desirable road course is well deserved. In the middle of the year there was Parade in French Lick/West Baden. Parade was in huge demand as PCA members came from all over. The reputation of French Lick/West Baden hospitality and accomodations caused many to return or come back for what they missed in 2015. Zone 13 members showed up in good numbers! Zone 13 was fortunate to have the event return after only 6 years. In the fall, there was a Treffen in Kohler, Wisc also in Zone 13. The American Club is a great resort with a lot of charm. Many thanks go to the regions and members of Wisc for their volunteering efforts to make Treffen a successful event.

The other activities within the Zone have to do with the charitable activities that happen within the zone. There are many very important charitable events that have developed over the years. These events put PCA and their regions out front in their communities. Thanks to all of you in the regions that carry on these traditions and contribute.

Have a great holiday season, share with family and friends, and spend time connecting up with your other region members. I'm looking forward to 2022 as well as I hope you are also.

All my best to all of you,  
Mark Roethemeier  
Zone 13 Representative
